CAREER OBJECTIVE

I am a .NET Developer with 4 years of experience. I am passionate about learning new technologies and best practices to grow into a senior developer. As a responsible, self-motivated, and hardworking professional, I will contribute my experience to your organization.

EDUCATION

Cao Thang Technical College   **2018 - 2021**

TECHNICAL SKILLS

- **Programming Languages**: C#, JavaScript
- **Frameworks / Platforms / Libraries:** ASP.NET Core API, Entity Framework, Dapper, React.js.
- **Databases:** SQL Server, MySQL.
- **Others:**
  - Good understanding of OOP, SOLID principles, and Design Patterns.
  - Knowledge of HTML, CSS, JavaScript, and React.js.
  - Knowledge of Microservices, Docker, and Multitenancy.
- **Researched:** GitHub Actions, Jenkins, Clean Architecture.

PROJECTS

BLogic Systems - BLogic Dashboard (6 members)   **Mar.2025 - Present**

- **Description:** BLogic Dashboard is a support application designed for POS systems. It helps agents manage merchants through a hierarchical model, create support tickets, and generate registration forms using DocuSign. It also integrates with external systems such as TSYS to handle legal documentation.
- **Techniques:** ASP.NET Core API, RESTful API, API Versioning, Razor, Dapper, SignalR, Quartz, RabbitMQ, DocuSign, SQL Server, Design Patterns, Amazon S3, Seq Logging, Webhooks.
- **Responsibilities:**
  - Analyze and discuss customer requirements, and plan the development of each module.
  - Build and maintain the codebase, design the database, and develop new modules with optimized queries.
  - Set up and manage CI/CD pipelines using Jenkins for deployment on a Linux server.

Silicon Stack Pty Ltd - WECRM (15 members)   **Sep.2024 - Mar.2025**

- **Description:** WECRM is a customer relationship management system that allows vehicle management and reminds users to perform maintenance services at dealerships.
- **Techniques:** ASP.NET Core API, Entity Framework, RESTful API, Dapper, Ocelot, Elsa Workflows, Microservices, Multitenancy, Quartz, SQL Server, Design Patterns, RabbitMQ, and gRPC.
- **Responsibilities:**
  - Worked with the team to discuss customer requirements and implementation plans.
  - Maintained, refactored, fixed bugs, and optimized queries.
  - Identified and applied best practices for performance optimization.

Silicon Stack Pty Ltd - Kraft Heinz Promotion Planning (7 members)   Feb. 2022 - Sep. 2024

- **Description:** Promotion Planning is a financial app that allows users to price products in supermarkets in Australia and New Zealand.
- **Techniques:** ASP.NET Core API, Entity Framework, RESTful API, Dapper, Ocelot, Azure Pipelines, IIS Web Server, SQL Server, and Design Patterns.
- **Responsibilities:**
    - Worked with the team to discuss customer requirements and implementation plans.
    - Deployed, maintained, refactored, and fixed bugs.
    - Managed and reviewed member code features using Bitbucket.
    - Managed Azure Pipelines, IIS Web Server, and databases.

SOFT SKILLS

- Teamwork, problem-solving, flexible and English Intermediate.
- Planning and time management.
- Good communication during discussion and presentation.
