CAREER OBJECTIVE

Backend-focused .NET Developer with 4 years of experience building scalable, maintainable, and reliable systems. I approach software development with a product-oriented mindset, focusing not only on technical solutions but also on delivering long-term value that aligns with business objectives. As a proactive, responsible, and self-motivated developer, I continuously learn and adapt to new technologies to grow both technically and professionally. My goal is to become a Senior Developer and contribute to meaningful products that create value for users and businesses.

TECHNICAL SKILLS

- **Programming Languages:** C#, JavaScript
- **Frameworks / Platforms / Libraries:** ASP.NET Core API, Entity Framework, Dapper, React.js.
- **Databases:** SQL Server, MySQL.
- **Others:**
 - Good understanding of OOP, SOLID principles, Design Patterns and Clean Architecture.
 - Knowledge of Microservices, Docker, and Multitenancy, GitHub Actions and Jenkins.
- **Researched:** K3s, Traefik, Helm Chart.

PROJECTS

BLogic Systems - BLogic Dashboard (6 members)

Mar.2025 - Present

- **Description:** BLogic Dashboard is a support application designed for **POS systems**. It helps agents manage merchants through a **hierarchical model**, create support tickets, and generate registration forms using **DocuSign**. It also integrates with external systems such as **TSYS** to handle **legal documentation**.
- **Techniques:** ASP.NET Core API, RESTful API, API Versioning, Razor, Dapper, SignalR, Quartz, RabbitMQ, DocuSign, SQL Server, Design Patterns, Amazon S3, Signoz, Webhooks.
- **Responsibilities:**
 - Analysed requirements, built a code base, and developed backend features using ASP.NET Core, Entity Framework, and SQL Server.
 - Designed databases and optimised application performance with efficient SQL queries.
 - Automated build and deployment processes using Jenkins on Linux servers.
 - Integrated TSYS payment systems and supported secure transaction processing.
 - Investigated production issues and contributed to system scalability improvements.

Silicon Stack Pty Ltd - WECRM (15 members)

Sep.2024 - Mar.2025

- **Description:** WECRM is a customer relationship management (CRM) platform for automotive dealerships, supporting vehicle lifecycle management, customer tracking, and maintenance service reminder workflows.
- **Techniques:** ASP.NET Core API, Entity Framework Core, Dapper, SQL Server, RESTful API, Microservices, RabbitMQ, gRPC, Ocelot API Gateway, Elsa Workflows, Quartz Scheduler, Multitenancy, Design Patterns.

- **Responsibilities:**

- Collaborated with team members to analyse requirements and develop CRM features for dealership operations.
- Implemented workflow automation and scheduled jobs using RabbitMQ, gRPC, Elsa Workflows, and Quartz Scheduler.
- Improved application performance through query optimisation, code refactoring, and efficient database design.
- Enhanced CRM workflows for vehicle management and maintenance service reminder operations.

Silicon Stack Pty Ltd - Kraft Heinz Promotion Planning (7 members)

Feb. 2022 - Sep. 2024

- **Description:** Promotion Planning is a pricing management system in the manufacturing domain that enables businesses to plan, manage, and optimize product pricing and promotional strategies for supermarket chains across Australia and New Zealand.
- **Techniques:** ASP.NET Core API, Entity Framework, RESTful API, Dapper, Ocelot, Azure Pipelines, IIS Web Server, SQL Server, and Design Patterns.
- **Responsibilities:**
 - Enhanced authentication and access control mechanisms to improve system security and reliability.
 - Improved API performance and maintainability through backend optimisation, SQL query tuning, and code refactoring.
 - Mentored and provided technical guidance to 2 team members, supporting feature delivery and code quality improvements.
 - Supported CI/CD automation and production deployments using Azure Pipelines and IIS Web Server.

SOFT SKILLS

- English: TOEIC 535 (Listening & Reading).
- Teamwork, problem-solving, and flexibility.
- Planning and time management.
- Good communication during discussion and presentation.

EDUCATION

Cao Thang Technical College

2018 - 2021
